COBIS Beacon Schools

The COBIS network contains a vast amount of best practice, innovation and excellence. This quality is highlighted through the COBIS Compliance and Accreditation process, where schools can be awarded Beacon School status.

Beacon Status schools have demonstrated excellence in specific aspects of, or the whole of a particular standard, and are committed to sharing their best practice with other schools around the world.

Below you will find a list of our standards and the schools that have been awarded Beacon Status for each, as well as the date of their school visit. We encourage Members to reach out to these schools for advice and guidance.
